21 and 22 March 2012 in Berlin

This project is implemented through the CENTRAL EUROPE Programme co-financed by the ERDF

In the year 2010 the Member States of the EU submitted their national Renewable Energy Action Plans (nREAPS) to the European Commission. They show how the Member States intend to reach their national targets for the share of renewable energy sources.

The 4Biomass project supports the efforts of the Central European countries to implement bioenergy policies that follow specifications of their nREAPs. Based on the results of the project, the 4Biomass partners support bioenergy development and deployment in the CE region as a complementary renewable source to wind, solar and hydro power.

The Central Europe countries have a good or even tremendous biomass potential. Though, biomass is limited and should be used in the most efficient way. Biomass is a regional source and should preferably be deployed in decentralized systems. Stakeholders in the CE see biomass as the most important resource to reach the targets of the nREAPs until the year 2020.

For more information and all project outputs please visit following website:

21st March 2012

The Second Transnational Forum – Bioenergy policy in Central Europe

From 9am to 5pm

Session I:

Implementation of national Renewable Energy Action Plans –Bioenergy strategies in Central European countries

Birger Kerckow - Agency for Renewable Resources

Edita Vagonyte – AEBIOM

Hubertus von der Goltz - Federal Ministry of Food, Agriculture and Consumer Protection

Marek Svetlik - Ministry of Agriculture (tbc)

Martina Šumenjak-Sabol - Slovenian Biomass Association

Vito Pignatelli, Italian Biomass Association

Magdalena Rogulska - Institute for Fuels and Renewable Energy

Session II:

Transnational Action Plan (TAP) - Project results of 4Biomass - towards a coordinated sustainable bioenergy policy in Central Europe

Johannes Schmidl - Austrian Energy Agency

Sybille Tempel – Environmental Policy Research Centre, Freie Universität Berlin

Lutz Mez - Environmental Policy Research Centre, Freie Universität Berlin

22nd March 2012

Investors' Forum – Sustainable Bioenergy Investments in Central Europe

From 9am to 5pm

Session III:

Investor's forum – Sustainable Bioenergy Investments in Central Europe

Claudia Lutsyuk - Agency for Renewable Resources

Katharina Umpfenbach - Ecologic Institute on behalf of the German Federal Ministry of the Environment, Nature Conservation and Nuclear Safety

Dr. Andreas Wieg – DGRV

Jürgen Bohn, juwi Bio GmbH

Session IV:

Lessons Learned – Results of three year project's activities to facilitate sustainable bioenergy projects in Central Europe

István Kaszab - Hungarian Bioethanol Association

Adam Gula - University for Technology Krakow

Josef Petschko - AGRAR PLUS GmbH

Melanie Degel - Institute for Future Studies and Technology Assessment

Martha Bißmann - WIP - Renewable Energies
